

New Haw Community School

SPECIAL EDUCATIONAL NEEDS & DISABILITY POLICY

2019-2020

1 INTRODUCTION

1.1 Policy Development

The following document comprises the policy of New Haw Community School (NHCS) with regard to pupils who have special educational needs and/or disabilities (SEND). It has been adapted from the model policy provided by NASEN (www.nasen.org.uk). This policy was created by the school's SENCO (special educational needs coordinator), in consultation with the SEND governor, senior leadership team (SLT), staff and parents of pupils with SEND and approved by the Governing Body March 2019.

The policy will be reviewed annually as part of the governing body's policy review schedule and should be read in conjunction with the school's other policies. It should also be read in conjunction with the school's SEND Information Report, which is available on the school website. The SEND policy is next due for review in **March 2020**.

1.2 Compliance

This policy complies with the statutory requirement laid out in the *Special educational needs and disability code of practice: 0 to 25 years* (DfE, 2015, hereinafter referred to as the Code of Practice

(https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/398815/SEND_Code_of_Practice_January_2015.pdf). The policy has been written with reference to the following guidance and documents:

The Special Educational Needs and Disability Regulations (DfE 2014)	http://www.legislation.gov.uk/ukxi/2014/1530/pdfs/ukxi_20141530_en.pdf
The Equality Act 2010 and schools (DfE 2014)	https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/315587/Equality_Act_Advice_Final.pdf
Schools SEND Information Report Regulations (2014)	https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/251874/Consultation_on_draft_0_to_25_Special_Educational_Needs_SEN_-_SEN_information.pdf
Statutory Guidance on Supporting pupils at school with medical conditions (DfE 2014)	https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/306952/Statutory_guidance_on_supporting_pupils_at_school_with_medical_conditions.pdf

1.3 Availability

A copy of this policy can be found on the school's website (www.new-haw.surrey.sch.uk). Paper copies can be requested from the school office.

1.4 Definitions of Special Educational Needs and Disability

The Code of Practice (DfE 2014, pp15-16) defines SEN and Disability as follows:

SEN

A child or young person has SEN if they have **a learning difficulty or disability which calls for special educational provision to be made for him or her.**

A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- has a significantly greater difficulty in learning than the majority of others of the same age, or
- has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions

For children aged two or more, special educational provision is educational or training **provision that is additional to or different from** that made generally for other children or young people of the same age by mainstream schools.

Disability

Many children and young people who have SEN may have a disability under the Equality Act 2010 – that is ‘...**a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities**’. This definition provides a relatively low threshold and includes more children than many realise: ‘long-term’ is defined as ‘a year or more’ and ‘substantial’ is defined as ‘more than minor or trivial’. This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer. Children and young people with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and young people and those with SEN. Where a disabled child or young person requires special educational provision they will be covered by the SEND definitions.

1.5 Key personnel – roles and responsibilities

SENCO

The school’s SENCO is Mrs Rachel Dempsey, who is also a member of the school’s senior leadership team (SLT). She can be contacted through the school office:

- Telephone: 01932 336571
- Email: office@new-haw.surrey.sch.uk.

Mrs Dempsey has day-to-day responsibility for overseeing the operation of the SEND policy and coordinates the provision made to support individual pupils with SEND, as set out in paragraphs 6.84-6.94 of the Code of Practice.

Class Teachers

In addition to the above, it is each class teacher’s responsibility to:

- act as the first port of call for parents of children with SEND;

- write SEND Support Arrangements for each SEND child, and review them termly, in conjunction with the child and their parent(s)/guardian(s);
- be involved in the development of the school's SEND policy;
- ensure they are fully aware of the school's procedures for identifying, assessing and making provision for pupils with SEND;
- read the children's SEND files and, where possible, act on the recommendations made by the SENCO and/or outside agencies;
- ensure that children with SEND are fully included in the school's planning and assessment cycle;
- provide appropriately differentiated work for each child and ensure that all children in their class, including those with SEND, have the best possible access to a broad and balanced curriculum;
- endeavour to provide an SEND-friendly learning environment;
- be pro-active in seeking professional development opportunities to further their knowledge and skills relating to special educational needs.

Other key personnel

Home School Link Worker (HSLW & ELSA)	Mrs Karen Throgmorton
Member of the governing body with specific oversight of the school's arrangements for SEND and disability	Mrs Joan Read
Designated teacher with specific safeguarding responsibility	Mrs Marie Cahill
Member of staff responsible for managing LAC/PP funding	Mrs Emma Mackenzie
Member of staff responsible for managing the school's responsibility for meeting the medical needs of pupils	Mrs Gail Gentile

1.6 New Haw Community School

New Haw Community School (NHCS) is a 3-form entry junior school, which shares a site with The Grange Community Infant School. NHCS converted to academy status in May 2014. The school buildings are all on a single level and there are very few steps. An outside ramp near the school library enables disabled access to and from the playground. Another outside ramp also provides access from the quiet area of the playground into the medical room. There is a large disabled toilet near the library, which includes a shower facility.

2 AIM AND OBJECTIVES

2.1 Aims

NHCS's motto is "*where happiness and learning unite*". At NHCS we believe that *all* children, regardless of need, are entitled to the best possible educational provision and outcomes. Underpinning the ethos of the school is our belief that all children have needs, of which SEND may or may not be a part. At NHCS we see our role as facilitators of learning; as educators we endeavour to ensure that all children have full access to a broad and balanced curriculum, have their needs identified as early as possible, receive focused provision matched to those needs, and thereby leave us with the best possible outcomes. In this regard, children with SEND are no different to their peers.

Our aim is to raise the aspirations of, and expectations for, all of our pupils and to enable them to reach their potential. We recognise that all teachers are teachers of pupils with SEND and that all members of the teaching team therefore share responsibility for all pupils' progress, attainment and well-being.

2.2 Objectives

It is intended that the school's SEND policy provides a clear framework to ensure that the following objectives are met:

- NHCS will operate a "whole pupil, whole school" approach to the management of, and provision for, support for SEND;
- All staff will clearly understand their responsibilities regarding children with SEND, thereby sharing a common vision and understanding;
- Children with SEND will have their needs identified as early and as accurately as possible;
- Wherever possible, all children will have full access to a broad and balanced curriculum, which has been appropriately differentiated to meet their individual needs;
- Children with SEND will enjoy the same expectations regarding their progress as their peers;
- Staff will receive adequate training and support to ensure that they are able to identify, assess and make appropriate provision for children with SEND;
- Parent and pupil voice will be sought and listened to in relation to the school's best efforts to make appropriate provision for children with SEND;
- School will work within the guidance provided in the Code of Practice.

2.3 Parent and pupil voice

At NHCS we recognise that parents, teachers and children are full partners in the education process and have developed policies and procedures which encourage pupil and parental involvement in all aspects of school life.

Parents have a unique knowledge of their children and it is our intent that they are fully involved in the school-based response for their child. Class teachers are the first port of call for parents of children with SEND, but parents may make an appointment with the SENCO at any time. Class teachers have the responsibility of sharing with parents details of any intervention(s) their child is receiving. Where children are seen in school by outside agencies, parents are invited into school to meet with the relevant specialist, whenever possible.

3 IDENTIFYING SPECIAL EDUCATIONAL NEEDS

3.1 Categories of need

The Code of Practice (paragraphs 6.28-6.35) identifies four broad categories of need, which give an overview of the range of needs that the school plans for (see Appendix A for more details). These are:

- Communication and Interaction
- Cognition and Learning
- Social, Mental and Emotional Health*
- Physical and Sensory.

*The category of Behaviour, Emotional and Social Difficulties, which existed in the 2001 Code of Practice, has been replaced by Social, Mental and Emotional Health, in recognition of the fact that behavioural difficulties are the **result** of underlying needs, not needs in and of themselves.

The purpose of identification is to work out what action the school needs to take, not to fit a pupil into a category. At NHCS we identify the needs of pupils by considering the needs of the whole child, which will include not just the child's special educational needs.

The following are **not** special educational needs but may impact on a child's progress and attainment:

- Disability
- Attendance and punctuality
- Health and welfare
- English as an additional language (EAL)
- Being eligible for the Pupil Premium
- Being a Looked After Child
- Being a child of armed forces personnel.

3.2 Year 3 screening programme

On entry to Year 3, all children are assessed in a variety of areas: cognitive ability, auditory processing/memory, short term and working memory, phonological awareness, reading (decoding and comprehension), writing, maths. Where there are indicators of difficulty, some pupils undergo further assessment, for example, in phonics and/or language.

The school is fortunate in having an extensive bank of professional assessment materials, which can be administered by the SENCO (and, in many instances, class teachers) to help to further pinpoint children's difficulties. .

During their first term at NHCS teachers work to build up an accurate picture of each child's needs, which may or may not include SEND. This is done with reference to:

- Information provided by pupils' previous educational settings, including SEND Support Arrangements (where SEND difficulties have already been identified);
- Data from the school's Year 3 screening programme (outlined above);
- Information provided by parents;

- Ongoing observation of each child.

Children who join the school other than at the beginning of year 3, or those who begin to give cause for concern during their time with us, are closely monitored by their class teachers and discussed with the SENCO.

4 A GRADUATED APPROACH TO SEND SUPPORT

4.1 Quality first teaching

The first step in responding to pupils who may or may not have SEND is always high-quality teaching in the classroom, differentiated for individual pupils. Additional intervention and support cannot compensate for a lack of high-quality everyday teaching. Teachers at NHCS recognise that they are responsible and accountable for the progress and development of all of the pupils in their class, including where pupils access support from assistant teachers or other (sometimes specialist) staff. The school's senior leadership regularly and carefully review the quality of teaching for all pupils, including those at risk of underachievement. This includes reviewing and, where necessary, improving, teachers' understanding of strategies to identify and support vulnerable pupils and their knowledge of the special educational needs most frequently encountered.

4.2 Early intervention

When possible SEND difficulties are identified (or have been identified by the child's previous school), parents are contacted and invited to come into school to meet with the child's class teacher. The purpose of this initial meeting will be to ensure both school and family have a clear picture of any possible barriers to learning or well-being a child may have. The class teacher then agrees, in consultation with the parents and the pupil, the adjustments, interventions and support to be put in place, both at home and at school, as well as the expected impact on progress, development or behaviour. A clear date is set for review. This is the start of the **ASSESS-PLAN-DO-REVIEW** cycle, by which the school ensures that children's needs are met.

4.3 SEND register

Where children's SEND difficulties are significant, or where little or no progress has been made by the time of the first review, following discussions with the school's SENCO and the child's parents, the decision will be made to place the child on the school's SEND register, which is maintained by the SENCO.

4.4 SEND Support Arrangements

Once a child has been placed on the SEND register, the first step is for the class teacher to create a target sheet of support, which is shared with the child and parents. This document is called **SEND Support Arrangements 1**. Targets are set and reviewed half termly. Should the child's needs escalate, the class teacher will then work with the child's parents, and the child themselves, to draw up a document entitled **SEND Support Arrangements 2**. Although NHCS is an academy, and therefore not under local authority control, the school's SEND Support Arrangements documentation closely mirrors the documentation which Surrey expects its educational settings to use to demonstrate how they are providing SEND support for children with SEND who are not in receipt of an Education, Health and Care Plan (EHCP) (see <https://www.surreylocaloffer.org.uk/kb5/surrey/localoffer/home.page>). The SEND Support Arrangements 2 aims to provide a holistic picture of the child, and to ensure their voice, and that of their family, is heard and represented. The aim is to balance what is important to the child and their family with what is important for them.

The class teacher stores the completed SEND Support Arrangements document in the SEND folder on the school's IT system and gives a paper copy to the child's parents.

4.5 Managing pupil needs on the SEND register

SEND Support Arrangements set out clear outcomes to be achieved within an agreed time limit. Once the document has been set up, it is reviewed by the class teacher at least termly, in consultation with both the child and his/her family (separately or individually). It is the SENCO's responsibility to monitor that these regular reviews take place, but it is the core expectation that class teachers hold the responsibility for evidencing progress according to the outcomes described in the plan. SEND Support Arrangements are regarded as living documents.

Children receiving additional help as a result of their SEND difficulties are regarded as being on *SEND Support*. This single category has replaced what was previously called *School Action* or *School Action Plus* support.

There is sometimes the expectation that additional help will take the form of the deployment of extra staff to enable one-to-one tuition to be given to the child. However, this may not be the most appropriate support. A more appropriate approach might be to provide different learning materials or special equipment, to introduce some group or individual support, to devote extra adult time to devising the nature of the planned intervention and to monitoring its effectiveness or to undertake staff development and training to introduce more effective strategies.

4.6 Engaging additional support/specialist services

When a child continues to experience significant difficulties at school, increasing specialist expertise can be brought to bear. Where a child's needs are significant, the child can be referred for assessment/advice to Surrey's school support services (e.g. Educational

Psychology, Learning and Language Support, Behaviour Support, Race Equality and Minority Support, Physical and Sensory Support), to Social Care and/or to Health (e.g. Speech and Language Therapy, Occupational Therapy, CAMHS). Referrals are made by the SENCO or HSLW, once parental consent has been obtained. It should be noted, however, that each of these agencies operates its own threshold criteria and school has no control over whether or not the agency will accept and act upon referrals; school also has no control over the various services' waiting lists.

As a school we are also able to seek advice from staff at Meath School, a specialist I-CAN school for children with speech and language difficulties, with whom we enjoy a close partnership. We also make use of the Outreach services from other special schools, such as Freemantles School (complex social communication needs), Tadworth Court (brain injury) and Gosden House School (learning and additional needs).

It is the school's usual practice, wherever possible, to invite parents to meet with the outside agency specialists.

4.7 Education, Health and Care Plans

Despite high-quality teaching and purposeful intervention, a very small number of children receiving SEND Support may make inadequate progress towards their identified outcomes. Where pupils are making inadequate progress given their age, starting point and particular circumstances, it may be appropriate to consider whether an Education, Health and Care Plan (EHCP) is needed. This is likely to be the case for children who present with multiple special educational needs of an interrelated and enduring nature and who require more highly specialised and personalised arrangements in order to achieve their outcomes.

Full details of the EHCP process can be found on Surrey's local offer website (<https://www.surreylocaloffer.org.uk/kb5/surrey/localoffer/advice.page?id=3Nrc0SyyVic>).

5 CRITERIA FOR EXITING THE SEND REGISTER

When, as part of the review process outlined in 4.3 and 4.4, school and parents agree that a child has made sufficient progress to no longer be considered as having special educational needs, their names will be removed from the SEND register. Their SEND file (including any SEND Support Arrangements) will, however, be retained by the SENCO.

6 SUPPORTING PUPILS AND FAMILIES

6.1 Admission arrangements

NHCS has a highly inclusive ethos and warmly welcomes applications for places from *all* children **for whom it is the nearest school**, including those with SEND. Please see the school's admissions policy for full details.

6.2 Home School Link Worker & Emotional Literacy Support Assistant

The children, staff and parents at NHCS benefit enormously from the expertise of the school's HSLW and ELSA, Mrs Karen Throgmorton, formerly our school nurse. Mrs Throgmorton has very close links with child health services, Social Care and a number of voluntary organizations. She completed ELSA training in December 2018 and is now able to offer fixed-period support to children referred to her by staff. Parental consent must be obtained for this.

6.3 Surrey's Local Offer

Surrey County Council's local offer can be found on its designated website - <https://www.surreylocaloffer.org.uk/kb5/surrey/localoffer/home.page>. The site contains a great deal of information relating to education, health and care services on offer within the local authority area. The tabs on the website home page provide access to many useful documents which outline the county's systems and processes with regard to SEND.

6.4 School's Local Offer

The school has also published its own local offer on the school website, in response to the statutory requirement to provide a SEND Information Report.

6.5 Access arrangements

Each year the Department of Education publishes guidance for teachers and headteachers about making and using arrangements so that pupils with specific needs can take part in the KS2 tests. Our school fully adheres to the published guidance. Parents may be interested to look at the guidance outlined for the 2019 KS2 tests - see <https://www.gov.uk/government/publications/key-stage-2-tests-access-arrangements>

6.6 Transition

In the summer term of the academic year preceding the children's entry to our school, the SENCO, HSLW and year 3 teachers gather transfer information from each of our feeder schools, including details of all SEND. Depending on the size and profile of the incoming cohort, the SENCO and/or HSLW and/or members of the year 3 teaching team may also visit the feeder schools in order to get a clear picture of the level of need. Where incoming pupils are known to have significant needs, their parents are also invited to make an appointment with the SENCO and/or HSLW. An information meeting is held each June for the parents of all year 2 children who are transferring to NHCS in the following September.

If feeder schools and/or parents feel that a child would benefit from making additional visits to NHCS prior to entry, we are more than happy to accommodate their request. Where children have an EHCP, we always welcome the opportunity to attend their year 2 annual reviews.

Very similar arrangements exist for our year 6 pupils, who are transferring to secondary school. Written handover forms, completed by the SENCO and/or HSLW and/or year 6 teaching team, are forwarded to all relevant secondary schools in the summer term prior to transfer. When considered necessary to ensuring a successful transition, the SENCO will also arrange for the year 6 pupil to make additional visits to their new secondary school. The SENCO and HSLW also meet face-to-face with secondary SENCOs to discuss each child with SEND in detail.

7 SUPPORTING PUPILS AT SCHOOL WITH MEDICAL CONDITIONS

The school recognises that pupils at school with medical conditions should be properly supported so that they have full access to education, including school trips and physical education. Some children with medical conditions may be disabled and, where this is the case, the school will comply with its duties under the Equality Act 2010. Some may also have special educational needs and may have an EHCP, which brings together Education, Health and Social Care needs.

The school follows the Department of Education's *Statutory Guidance on Supporting pupils at school with medical conditions (DfE 2014)*. Where there are relevant medical needs, the school office team, working in conjunction with parents, prepares an individual health care plan, which clearly sets out the nature of a child's needs and the required provision. They ensure that all relevant staff are aware of the plan and that the required provision is in place and meets the requirements of the school's Health, Safety and Welfare Policy (copy available on request). Where children with medical conditions also have SEND, the SENCO has the responsibility for monitoring that the children's needs are being appropriately met.

8 MONITORING AND EVALUATION OF SEND

The school has rigorous monitoring arrangements in place for reviewing and continually improving provision for all pupils. These include formal observations, weekly 'drop-ins' by senior staff, work sampling etc. Annual questionnaires for both staff, children and parents are carefully analysed. The Parents in Partnership group (PIPS) meets termly with the Headteacher, Deputy and Assistant Headteachers. The School Council also meets regularly, with pupil representatives from every class.

Governing Body meetings always take place during the school day so that governors have every opportunity to see the work of the school in action.

The SENCO produces a school provision map, which provides an overview of support given to pupils with SEND. At the end of each term, via SEND Support Arrangements review meetings, class teachers review the impact of the additional provision against expected outcomes for each individual child. The SENCO, in conjunction with the teaching teams, then makes a judgement as to the effectiveness of the intervention as a whole. If, for example, only 2 out of 6 children receiving a particular intervention made progress, that intervention would not be regarded as being sufficiently effective and would not be repeated the following term.

9 TRAINING AND RESOURCES

Training

At NHCS, continued professional development is actively encouraged. Staff new to the school complete an induction programme (monitored by the School Business Manager) which includes a session with the SENCO. Training in SEND regularly forms a part of staff meetings and whole-school INSET. The identification of training needs forms part of the school's performance management process. A small SEND library is maintained in the HSLW's office in order to support staff. The SENCO regularly attends the local authority SENCO network meetings, together with local confederation SENCO meetings and EP SENCO circles, in order to keep up to date with local and national agendas.

Funding

Details of how Surrey funds SEND provision can be found in their document *The Right Provision at The Right Time*

(http://www.surreycc.gov.uk/_data/assets/pdf_file/0003/32088/SEND_The-Right-Provision-at-The-Right-Time_100815.pdf?bustCache=5747919). Further funding

information can be found in Surrey's Banding Arrangements documentation

https://www.surreycc.gov.uk/_data/assets/pdf_file/0014/32252/SEND_Banding-Arrangements-for-School-age-Pupils_100815_v1.1.pdf

10 STORING AND MANAGING INFORMATION

At NHCS, all documents are stored in line with the school's GDPR Policy, a copy of which is available on request. The provision made for pupils with SEND is recorded and kept up-to-date by class teachers, as outlined in Section 4 of this policy. All SEND documentation is carefully monitored by the SENCO.

11 REVIEWING THE POLICY

This policy will be reviewed annually. The SENCO is responsible for ensuring that this review takes place. The SEND policy is next due for review in **March 2020**.

12 ACCESSIBILITY

NHCS's Accessibility Plan is published on the school's website, together with a Disability Statement.

At NHCS, pupils with SEND are expected and encouraged to join in all the activities of the school alongside their peers, as far as is reasonably practicable and compatible both with the child receiving the special educational provision and with the efficient education of the pupils with whom they are educated. As a school we are completely committed to identifying and, as far as possible, removing any barriers pupils may have. This includes teaching and learning and the wider curriculum, e.g. participation in before- and after-school clubs, leisure and cultural activities or school visits.

Where physical aids are recommended by outside agency professionals, e.g. Occupational Therapy, school will purchase these if at all financially possible. Access arrangements are also made for formal tests, e.g. providing a scribe, laptop. Textbooks, worksheets, homework etc are all enlarged where necessary.

13 DEALING WITH COMPLAINTS

Parents who have complaints with regard to SEND provision are encouraged to discuss their concerns with their child's class teacher in the first instance. If the issue is not resolved to their satisfaction, they should then make an appointment to see the school SENCO. Should parents feel that their concerns have not been adequately dealt with by the class teacher and SENCO, they should then contact the Headteacher. At any point, parents may contact the school's SEND governor, Mrs Joan Read, via the school office. The school's Complaints Policy can be found on the school website; paper copies can be requested via the school office.

14 BULLYING

The school has very high expectations of behaviour and bullying or other intolerant behaviour is regarded as completely unacceptable. All children participate in PSHE (personal, social and health education) lessons, which aim to develop them socially and emotionally. Feedback from the annual questionnaires sent out to parents and children confirms that there are very few incidences of bullying at NHCS and that, when they occur, they are robustly dealt with by the senior team.

The school's Behaviour Policy is available on request.

15 APPENDICES

Appendix A	Categories of Need
Appendix B	SEND Support Arrangements 1 – template
Appendix C	SEND Support Arrangements 2 - template

APPENDIX A – CATEGORIES OF NEED (as outlined in the Code of Practice, paragraphs 6.28-6.35)

Communication and interaction

Children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.

Children and young people with ASD, including Asperger's Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

Cognition and learning

Support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate differentiation. Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.

Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

Social, emotional and mental health difficulties

Children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.

Schools and colleges should have clear processes to support children and young people, including how they will manage the effect of any disruptive behaviour so it does not adversely affect other pupils. The Department for Education publishes guidance on managing pupils' mental health and behaviour difficulties in schools.

Sensory and/or physical needs

Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their

learning, or habilitation support. Children and young people with an MSI have a combination of vision and hearing difficulties. Information on how to provide services for deafblind children and young people is available through the Social Care for Deafblind Children and Adults guidance published by the Department of Health.

Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.

Early Help Assessment

Considered but not necessary	Date of decision:
Early Help Assessment completed	Date of completion:

Questions for parents:

1. Are there any concerns outside of school which impact on your child’s learning and well-being and/or make it more difficult for you to help your child e.g. housing, finance, family support networks.

2. Is there anything else you feel it is important for us to know about your child's learning and behaviour at home?
3. Is there any support you feel would help you as a parent/carer in supporting your child/family?
